ABOUT

SQA Engineer with 2+ years of experience in manual and automated testing for web and mobile applications. Proficient in JIRA, Postman, Playwright, and JMeter with strong expertise in API testing, test case design, and Agile methodologies. Experienced in applying AI-powered tools for smart test generation, defect prediction, and automation enhancement to improve software quality and testing efficiency. Seeking to contribute to an innovative, quality-driven development team.

TECHNICAL SKILLS

Programming Languages: JAVA, Python

Database: MySQL

Manual Testing: Requirement Analysis, Test Planning and Designing, Test Case, Test Execution, Test Report, Root cause Analysis.

Bug Tracking Tools: JIRA

Automation Testing: Playwright, Selenium

API Testing: Postman

Performance Software Tool: Apache JMeter

Concepts: SDLC, STLC, Agile Scrum.

MS Office: Word, PowerPoint, Excel.

Design Tools: Illustrator and Photoshop.

PROFESSIONAL EXPERIENCE

SQA Engineer, BJIT

October 2025 - Present

Dhaka, Bangladesh

- Reduced production defect leakage by detailed requirement analysis and effective functional testing across multiple releases.
- Improved application usability by identifying and validating critical UI/UX issues prior to client delivery.
- Accelerated defect resolution time by providing clear, reproducible bug reports and performing root cause analysis using JIRA.
- Strengthened overall product stability by executing comprehensive regression and integration testing during sprint cycles.
- Utilized AI-assisted tools for efficient test scenario generation and test documentation, improving testing productivity.

Software QA Engineer, Tappware Solutions Limited

October 2023 - September 2025

Dhaka, Bangladesh

- Enhanced software quality by detecting and preventing high-impact functional defects before production deployment.
- Reduced defect re-open rate by improved test case design and accurate defect documentation.
- Increased requirement coverage by developing well-structured test scenarios aligned with business needs.
- Improved system reliability by conducting end-to-end testing across web platform.
- Contributed to faster release delivery by identifying critical issues during early testing phases.

PROJECTS

Meal-Kun

- A complete meal management system used in Japanese kindergarten and primary schools, supporting daily meal planning, ordering, nutrition tracking, and parent–school communication.

D-Nothi

- A key government project in Bangladesh under a2i, designed to streamline workflow for government officers. Ensured comprehensive testing across both web and mobile platforms, contributing to the successful implementation of a system used nationwide.

Practice Management System (PMS)

- Tailored for business houses in the UK, focusing on end-to-end testing to ensure system reliability, user-friendliness, and compliance with industry standards. Collaborated closely with the development team to refine the system based on rigorous testing protocols.

Bangladesh Securities and Exchange Commission (BSEC)

- Conducted extensive testing for the IPO Application system, ensuring seamless interactions between Issue Managers, Admins, Stock Exchanges, and Issuers. Focused on functional, performance, and security testing to maintain compliance with regulatory standards and ensure a smooth IPO application process.

Gladrags ecommerce Website

- Performed end-to-end testing for GladRags (a clothing eCommerce platform), including test case design, bug reporting, regression testing, and User Acceptance Testing (UAT) to ensure seamless functionality and user experience.

EDUCATION

BRAC University, Dhaka

January 2019 - January 2023

Bachelor's of Computer Science and Engineering

- CGPA: 3.54
- Two times Dean's List & Two times VC's List
- Got Distinction

Hazera-Taju Degree College, Chittagong

June 2016 - June 2018

Higher School Certificate (HSC)

Nasirabad govt. high school (Boys'), Chittagong

January 2014 - March 2016

Secondary School Certificate (SSC)

LANGUAGE SKILLS

- **Mother Tongue(s):** Bengali.
- **Other Languages:** English

CERTIFICATIONS

- **International English Language Testing System (IELTS):** Overall - 7.0 (C1)
- **Graphics Design Certificate (Adobe Photoshop CC ; Adobe Illustrator CC)**
